About me

Recently I have arrived in London from Wellington, New Zealand (holding a European passport) and am currently seeking work in the digital design area.

My skills in digital design have grown from my four years of experience in the in the web design / interactive industry and through my studies at Massey University, where I achieved my Bachelor of Design Degree in Digital Media.

I am a very positive designer and team player. I see my strengths in my ideas & execution of design, where I like to make things engaging, clean and beautiful. I have a good eye for detail and always keep to a high standard of design. As well as my graphics skills I am a keen animator / motion graphics designer.

Culturally, I am a very sociable individual who enjoys time with my friends and family. Outside of work you'll often find me enjoying live music or searching through second hand shops for vintage goods. I also enjoy amateur photography of the streets I walk in (see my website) which is often where I feel most inspired by design.

Please check out my portfolio at www.ryanovereem.com to get a taste of my work.

Skills

- Strong web design, graphic and typographic skills
- Skilled animator/motion graphics
- Efficient in time estimates and costing
- Accustomed to working to deadlines and managing competing demands
- Highly proficient in the operation of a Mac or PC
- Strong working knowledge of Adobe CS4 Suite including Photoshop, Illustrator, Flash & After Effects. (I also have worked in Adobe Indesign, Maya, Cinema 4D, Final Cut Pro and Pro Tools)
- General programming knowledge in HTML/CSS and Flash Action Script

Thanks!
